

Dunlop® Dane

Dunlop® Protective Footwear has developed a new boot: the Dunlop® Dane. This is the latest addition to the Dunlop® Protective Footwear range of Volume Line products.

The Dunlop® Dane offers great value for money, especially when buying in large quantities.

The boots feature a grime-repellent and non-skid sole and are available in two colours; black boots with a black sole, and green boots with a crepe sole.

The service level corresponds to the Dunlop® Dane positioning.

Dunlop® Dane boots are characterised by our Dunlop® logos: the Flying D on the upper and the brand name 'DUNLOP' clearly visible on the sole. The heel also features our website address: dunlopboots.com.

Basically, the Dunlop® Dane is good value for money in large quantities!
